## HSE Certificate in Process Safety Management (PSM)

2nd - 6th September 2019

Thessaloniki, Greece

NEBOSH and Health and Safety Executive (HSE), the UK's Health and Safety Regulator, developed this Process Safety Management (PSM) qualification taking the knowledge of best practices applied widely for process industries such as oil and gas, refinery, chemicals, plastics, pharmaceuticals and food etc.

This qualification is a blend of engineering and management skills to provide process safety knowledge and understanding of recognized industrial practices to managers, supervisors and safety professionals to allow them to manage their process safety responsibilities to prevent catastrophic accidents and near misses associated with loss of containment of energy or dangerous substances such as chemicals and hydrocarbons.

What kind of people takes the NEBOSH HSE Certificate in Process Safety Management (PSM)?

The qualification is particularly relevant to the following people working within a process environment.

- Managers, Team leaders, and Supervisors
- Process Operators
- Newly qualified Health and Safety Advisors/Engineers

The NEBOSH **HSE Certificate in Process Safety Management (PSM)** covers the principles of process safety management applied widely in vast variety of process industries. The syllabus takes a risk management approach based on best practice and international industry standards.

## What does the course covers?

The NEBOSH HSE Certificate in Process Safety Management is designed to cover a range of issues affecting process industries.

Topics include:

- Process safety leadership
- Management of process risk
- Process safety hazard control
- Fire Protection and Emergency Response

## What are the benefits for the organization

This qualification has been developed specifically for process industries. It gives holders a sound breadth of knowledge that will help their employers to ensure that their process safety risks are being managed effectively. This benefits employers by:

**A safer workplace** – The NEBOSH HSE Certificate in Process Safety Management is all about keeping people safe from injury and loss of life. For employers this also means protecting valuable assets and avoiding prosecution, litigation and loss of reputation.

**Assurance** – An employer whose workers are NEBOSH qualified is an employer committed to process safety management.

The NEBOSH HSE Certificate in Process Safety Management can help employers achieve international standards and can even help win new business.

**Return on investment** – A worker with the NEBOSH HSE Certificate in Process Safety Management has practical knowledge that brings real value, wherever they operate.

## How long does it take?

The course lasts 4 days, from 02<sup>nd</sup> to 5<sup>th</sup> of September, from 09:00 to 17:00.

## Exam day: 6 September 2019

### What kind of people take the NEBOSH HSE Certificate in Process Safety Management (PSM)?

People from all around the world who work in process industries such as oil and gas, chemicals, plastics and pharmaceuticals.

Ideal for supervisors and managers, safety representatives and newly qualified health and safety advisors working within the process industries, both inside and outside the UK.

It is not designed for chemical and process safety engineers experienced in the specification, design and maintenance of process plant.

No formal previous health and safety knowledge is required. However, NEBOSH recommends students to have an underpinning knowledge of health and safety issues and may already have studied one of NEBOSH's qualifications.

The NEBOSH HSE Certificate in Process Safety Management also complements other NEBOSH - qualifications such as NEBOSH International General Certificate in Occupational Health and Safety.

English language skill level 6 or higher in IELTS, or equivalent is recommended, but not mandatory, for those whom the first language is not English.

## Assessment

Candidates are assessed by a 90 minute multiple choice examination. A qualification parchment will be sent to students on successful completion.

**Accommodation:** Ask for details.
